

Materials:

- Scavenger Hunt List for each person (or at least a couple per team)
 - Sample List provide on following page
- Prize for winning team (but be prepared for a possible tie!)

Instructions:

- Divide group into two teams.
- Explain that each team will be given scavenger hunt lists that are identical and the game is a race against the clock to see which team can produce the most items on the list from things within the current room. (If purses are somewhere outside the room, you might want to let the women gather them first.) Be sure to tell them that they will need to “prove” up their items when time is called.
- Hand each team their list (upside down) and set timer for 2 minutes.
- On your start command, teams turn their list over and begin their hunt.

- Key
- Mechanical Pencil
- Safety Pin
