

LIONESSE LEADERSHIP

Awaken the Instinctive Leader in YOU

Lions are born leaders. Cubs are born with instincts to hunt, propagate, lead, and thrive... they just don't know it. The primary goal of mature lionesses is to awaken those instincts to ensure the success of the pride. Like lions, you already have the instinctive ability to lead, and lead powerfully, from where ever you are in life... most of us just don't know it, or trust it, yet.

It's in you. Leadership has nothing to do with owning a business, the number of people you manage, how old you are, how long you've been in the business or how much you make. It has everything to do with your state of mind and the skill sets you master. This course will help you access the leader within, communicate and think like a leader, connect vision to action and inspire those around you to do the same.

COURSE OBJECTIVES:

- Accessing the leader within
- Possibility thinking
- Communicating like a leader
- Stopping the cycle of gossip and complaining
- Befriending fear and embracing mistakes
- Connecting vision to action
- Uniting a team
- Teaching and inspiring others
- Turning conflict to cooperation

Bring the Lions to Life! Using fantastic photography, exciting video clips, and deliciously descriptive language, Master Storyteller, Katherine Eitel, brings The Lioness Principle vividly and powerfully to life for your attendees. Transported in their minds to the wild African savannahs and coming in contact with their own internal leadership source, audiences are transported into an untapped and bountiful watershed of leadership abilities, strengths, and ideas. Using humor, tenderness, and poignant examples, this presentation will touch the hearts, minds, and souls of everyone in the room and leave them ROARING for more! African music and motivational pre-show PowerPoint are always included. For an additional fee, we can transform your meeting room with an African savannah theme!
